black-heads and rough, scaly skins, show the presence of some irritating humor in the blood. These acids and humors with which the blood is filled humor in the blood. These acids and humors with which the blood is filled are being constantly thrown off through the perse and glands, and the skin is kept in a feverish, diseased and unsightly condition. Nothing applied externally can change the condition of the blood or prevent the outflow of poisons and acids; only constitutional treatment can do this. The countless washes, salves, lotions, etc., that are used cannot reach the humor-laden blood and are, therefore, useless, except for the temporary comfort and cleanliness they afford. The acid poison in the blood, which is the cause of the trouble, must be removed before a cure can be effected. S. S. is a real blood purifier, possessing all the requirements to neutralize and remove the humor from the circulation. It completely eradicates every trace of the poison and restores this vital fluid to its natural state of purity S. S. S. cools the acid-heated blood so that instead of pouring out acrid matter on the skin it feeds and nourishes it with health-sustaining properties, and the eruptions and diseases of the skin pass away. Book on Skin Diseases and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
